

As a resident of this community Airl gives me positive music along with uplifting conversation. Airl gives the youth of my community alternative music that is not filled with guns and drugs. If Airl were to be displaced it would leave a large hole for a group of struggling youth, for whom Airl may be the only good thing they hear all day! I believe Airl is a service to our community because of the positive message they give to the listener, a message of hope!
